

The background of the image shows a large, light-colored corrugated metal wall, likely part of a warehouse or industrial building. In the foreground, a large, complex drilling rig is positioned. It has a vertical mast with a drill bit at the bottom, mounted on a four-legged base with adjustable feet. Two large tires are visible on the right side of the rig. To the left of the rig, there is a smaller, wheeled unit with a fuel tank and engine, labeled 'VLIG Compact'. The overall scene is dimly lit, with a blue tint. A yellow square is in the top-left corner, and a white vertical line runs through the center of the image.

GTC COMPACT

GTC COMPACT

GTC compact is a multipurpose drilling machine for profesional as well as personal use.

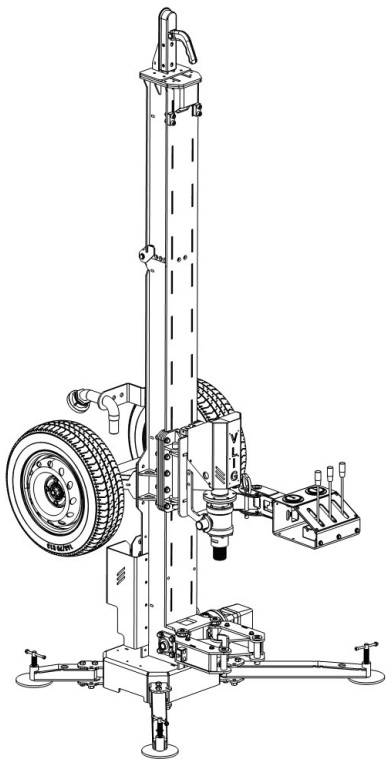

The machine consists of a drilling mast and a hydraulic generator as a separate unit. Machine is powered by a Briggs and Stratton engine with electro start. Controls are progressive and clamping head features double drop protection for drill pipes.

Area of use:

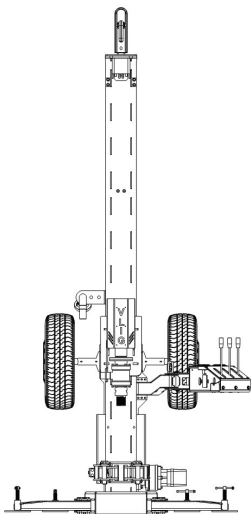

- Water wells
- Geomatic drilling
- Geotechnical drilling
- Sampling
- Air percussion drilling, DTH

Technical specification

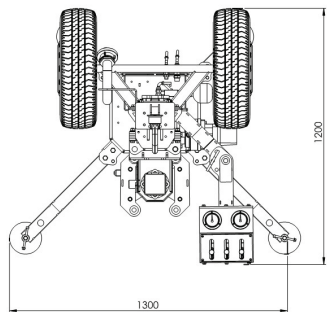

FRONT SIDE

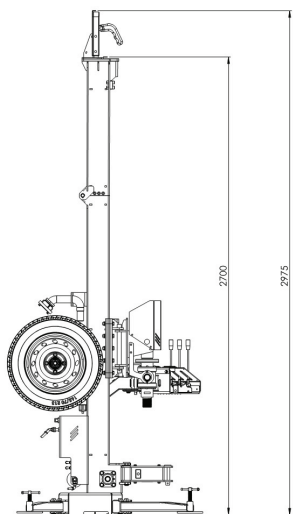

SPECIFICATION	GTC COMPACT
Rotary head torque	850nm
Rotary head RPM	50
Max pull up	1300kg
Max pull down	200-1300kg
Water swivel head	Yes
Pipe feed	1.5m
Max drilling depth	80m
Maks. drilling diameter	200mm
Power supply	Gasoline
Engine power	14hp
